

# Delphi Premium CD/MP3 Radio with Integrated Satellite Receiver

### ► Description

Delphi's Delco Electronics Premium CD/MP3 Receivers are satellite radio ready and specifically designed for the extreme driving environment of heavy-duty vehicles. With an integrated satellite tuner, activation with a satellite radio broadcaster allows users to listen to more than 100 channels of sports, news, talk, traffic, weather and commercial-free music from coast to coast.

Backed by a 1-year, unlimited-mile warranty, these receivers are equipped with NOAA 7-channel weather band and have LED backlighting for longer display life. Available for new vehicles as well as those already on the road, these receivers meet industry standard J1455 and are available through Pana-Pacific.

**Delphi Premium CD/MP3 Radio with Integrated Satellite Receiver**
